as an indicator of productivity because it shows the amount of revenue generated for each dollar spent.

(2) This measure is not a measure recognized under GAAP and is therefore considered to be a non-GAAP financial measure. See "Reconciliation of Non-GAAP to GAAP Financial Measures" for a reconciliation of this measure to its most comparable GAAP measure. Tangible shareholders' equity is defined as total shareholders' equity less goodwill and other intangible assets. The most directly comparable GAAP financial measure is total shareholder's equity. The Company had no goodwill or other intangible assets as of any of the dates indicated. The Company has not considered loan servicing rights or loan trailing fee asset as intangible assets for purposes of this calculation. As a result, tangible shareholders' equity is the same as total shareholders' equity as of each of the dates indicated.

#### Net Income

Net income was \$4.2 million for the fourth quarter of 2023, compared to \$4.8 million for the third quarter of 2023 and \$6.5 million for the fourth quarter of 2022. The decrease from the prior quarter was primarily due to an increase in salaries and employee benefits and professional service expenses driven by increased spending on business infrastructure. This was partially offset by an increase in the fair value of the Company's investment in Business Funding Group ("BFG"). The decrease from the prior year period was primarily due to lower gain on sale of loans and an increase in salaries and employee benefits expense driven by increased spending on business infrastructure, partially offset by an increase in net interest income driven by growth in the loans held for investment portfolio.

#### Net Interest Income

Net interest income was \$14.4 million for the fourth quarter of 2023, compared to \$14.4 million for the third quarter of 2023 and \$12.6 million for the fourth quarter of 2022. The slight decrease from the prior quarter was primarily due to increased interest rates and increased average interest-bearing liability balances, substantially offset by increases in the Bank's average balances for the loans held for investment portfolio. The increase from the prior year period was primarily due to increases in the Bank's average balances for the loans held for investment portfolio, partially offset by increased interest rates and increased average interest-bearing liability balances.

Loan originations totaled \$1.2 billion for the fourth quarter of 2023, compared to \$1.1 billion for the prior quarter and \$1.2 billion for the prior year period.

Net interest margin for the fourth quarter of 2023 was 10.61%, compared to 11.77% for the prior quarter and 14.27% for the prior year period. The decrease from the prior quarter was mainly due to a loan mix shift toward loans carrying lower yields in the held for investment portfolio and an increase in the volume of brokered certificates of deposit. The decrease from the prior year period was primarily due to a reduction in average balances in the Company's loans held for sale portfolio along with a shift in the Company's deposit portfolio mix from lower to higher cost deposits, partially offset by an increase in average balances for the Company's loans held for investment portfolio.

#### Provision for Credit Losses

The Company's provision for credit losses was \$3.2 million for the fourth quarter of 2023, compared to \$3.1 million for the prior quarter and \$3.2 million for the prior year period. The increase from the prior quarter was mainly due to qualitative factor adjustments based on the increase of special mention, non-accrual and nonperforming assets primarily related to the SBA portfolio. Provision for credit losses for the fourth quarter of 2023 was substantially flat compared to the prior year period. However, the provision for the prior year period was calculated under the incurred loss model rather than the current expected credit loss methodology as required under ASU 2016-13 and is not necessarily comparable to the provisions charged in 2023.

#### Non-interest Income

	For the Three Months Ended								
(\$ in thousands)	12/3	12/31/2023			12/31/2022				
Noninterest income:									
Strategic Program fees	\$	4,229	\$	3,945	\$	4,487			
Gain on sale of loans		440		357		4,163			
SBA loan servicing fees		450		199		547			
Change in fair value on investment in BFG		200		(500)		300			
Other miscellaneous income		716		1,228		278			
Total noninterest income	\$	6,035	\$	5,229	\$	9,775			

Non-interest income was \$6.0 million for the fourth quarter of 2023, compared to \$5.2 million for the prior quarter and \$9.8 million for the prior year period. The increase from the prior quarter was primarily due to the change in the fair value of the Company's investment in BFG, partially offset by a decrease in other miscellaneous income primarily related to a \$0.6 million gain on the resolution of a forbearance agreement in the Company's SBA lending program recognized in the prior quarter which did not occur in the fourth quarter of 2023. The decrease from the prior year period was mainly due to a reduction in gain on sale of loans primarily attributable to the gain on sale of loans recorded in the prior year period to establish a new Loan Trailing Fee Asset of approximately \$2.3 million and the Company's increased retention of the guaranteed portion of SBA loans the Company originates to increase interest income which resulted in a corresponding decrease in gain on sale income. Lower fees associated with originations of Strategic Program loans also contributed to the decrease from the prior year period. The decrease was partially offset by an increase in other miscellaneous income primarily related to increased revenue from growth in the Company's operating lease portfolio.

#### Non-interest Expense

	For the Three Months Ended								
(\$ in thousands)	12/31/2023			12/31/2022					
Non-interest expense									
Salaries and employee benefits	5 7,396	\$	6,416	\$	5,805

Occupancy and equipment expenses	923		958		843				
(Recovery) impairment of SBA servicing asset	(122)		337		779				

Other operating expenses	_	1,751	 1,609	 1,184
Total noninterest expense	\$	11,381	\$ 10,070	\$ 10,220

Non-interest expense was \$11.4 million for the fourth quarter of 2023, compared to \$10.1 million for the prior quarter and \$10.2 million for the prior year period. The increase from the prior quarter was primarily due to an increase in salaries and employee benefits and professional service expenses driven by increased spending on business infrastructure. This was partially offset by an increase in the fair value of the Company's investment in Business Funding Group ("BFG") that did not occur in the prior quarter. The increase from the prior year period was primarily due to an increase in salaries and employee benefits related to a higher number of employees and an increase in other operating expenses primarily related to occupancy and equipment expense, partially offset by a recovery on the Company's SBA servicing asset which did not occur in the prior year period.

The Company's efficiency ratio was 55.8% for the fourth quarter of 2023, compared to 51.3% for the prior quarter and 45.6% for the prior year period.

#### Tax Rate

The Company's effective tax rate was 28.5% for the fourth quarter of 2023, compared to 26.1% for the prior quarter and 27.3% for the prior year period. The increase from the prior quarter and prior year was due primarily to a state tax related true-up.

#### Balance Sheet

The Company's total assets were \$586.2 million as of December 31, 2023, an increase from \$555.1 million as of September 30, 2023 and \$400.8 million as of December 31, 2022. The increase from September 30, 2023 was primarily due to continued growth of deposits to support growth in the Company's SBA, commercial-non real estate, consumer, and residential real estate loan portfolios. The increase in total assets compared to December 31, 2022 was primarily due to increases in deposits to support growth in the Company's SBA, commercial non-real estate, and Strategic Program loans held-for-sale portfolios as well as interest-bearing deposits.

The following table shows the loan portfolio as of the dates indicated:

The held for investment balance on Strategic Programs with annual interest rates below 36% as of December 31, 2023, September 30, 2023 and December 31, 2022 was \$3.6 million, \$4.4 million and \$8.5 million, respectively.

Total deposits as of December 31, 2023 increased to \$404.8 million from \$386.8 million and \$243.0 million as of September 30, 2023 and December 31, 2022, respectively. The increase from September 30, 2023 was driven primarily by an increase in brokered time certificates of deposit, partially offset by a decrease in brokered interest-bearing demand deposits. The increase from December 31, 2022 was driven primarily by an increase in brokered time certificate of deposits, noninterest-bearing demand deposits, and money market deposits, partially offset by a decrease in interest-bearing demand deposits. As of December 31, 2023, 31.1% of deposits at the Bank level were uninsured, compared to 31.7% as of September 30, 2023. As of December 31, 2023, 6.8% of total bank deposits were required under the Company's Strategic Program agreements and an additional 11.2% were associated with other accounts owned by the Company or the Bank.

Compared to December 31, 2022, total shareholders' equity increased by \$14.6 million from \$140.5 million. The increase from September 30, 2023 was primarily due to the Company's net income. #### **Bank Regulatory Capital Ratios**

Allowance for credit losses to loans held for investment

The following table presents the leverage ratios for the Bank as of the dates indicated as determined under the Community Bank Leverage Ratio Framework of the Federal Deposit Insurance Corporation:

		As of		
Capital Ratios	12/31/2023	9/30/2023	12/31/2022	Well-Capitalized Requirement
Leverage Ratio	20.7%	22.1%	25.1%	9.0%

The Bank's capital levels remain significantly above well-capitalized guidelines as of December 31, 2023.

#### **Asset Quality**

Nonperforming loans were \$27.1 million, or 7.3% of total loans receivable, as of December 31, 2023, compared to \$10.7 million or 3.2% of total loans receivable, as of September 30, 2023 and \$0.4 million or 0.2% as of December 31, 2022. Of the \$27.1 million, \$10.7 million, and \$0.4 million nonperforming loans as of December 31, 2023, September 30, 2023 and December 31, 2022, respectively, \$15.0 million, \$4.7 million, and \$0, respectively, is guaranteed by the SBA and \$12.1 million, \$6.0 million, and \$0.4 million, respectively, is the balance of loans which do not carry SBA guarantees. The increase in nonperforming loans from the prior periods was primarily attributable to several loans in the SBA 7(a) loan portfolio moving to non-accrual status due mainly to the negative impact of elevated interest rates on the Company's small business borrowers. The Company's allowance for credit losses to total loans held for investment was 3.5% as of December 31, 2023 compared to 3.8% as of September 30, 2023 and 5.1% as of December 31, 2022. The Company's increased retention of most of the originated guaranteed portions in its SBA 7(a) loan program has been the primary factor in the decrease in this ratio from the prior quarter and year.

For the fourth quarter of 2023, the Company's net charge-offs were \$3.4 million, compared to \$2.2 million for the prior quarter and \$3.2 million for the prior year period. The increase compared to the prior quarter was primarily due to increased charge-offs related to the Company's SBA portfolio and a large recovery in the SBA portfolio in the prior quarter which did not occur in the fourth quarter of 2023. The increase compared to the fourth quarter of 2022 was primarily due to increased charge-offs related to the Company's SBA portfolio, partially offset by lower net charge-offs related to strategic program loans.

The following table presents a summary of changes in the allowance for credit losses and asset quality ratios for the periods indicated:

(1) This measure is not a measure recognized under United States generally accepted accounting principles, or GAAP, and is therefore considered to be a non-GAAP financial measure. See "Reconciliation of Non-GAAP to GAAP Financial Measures" for a reconciliation of this measure to its most comparable GAAP measure. Tangible shareholders' equity is defined as total shareholders' equity less goodwill and other intangible assets. The most directly comparable GAAP financial measure is total shareholder's equity. We had no goodwill or other intangible assets as of any of the dates indicated. We have not considered loan servicing rights or loan trailing fee asset as intangible assets for purposes of this calculation. As a result, tangible shareholders' equity is the same as total shareholders' equity as of each of the dates indicated.
